M.A. IN EDUCATION

FIRST SEMESTER

CC-1: PHILOSOPHICAL PERSPECTIVES OF EDUCATION

No. of Credits: 5	Contact Hours Per week-5	Maximum	Marks-100
Examination Duration-3 Hours	(Theory External-70, Practicum Internal-30)		

COURSE OBJECTIVES: On completion of this course the students will be able

- 1). To recognize and define the concept of philosophy.
- 2). To enable the students to understand the philosophical origins of educational theories and practices.
- 3). To enable the student to develop a philosophical outlook towards educational problems.
- 4). To understand nature and functions of education and philosophy and their relationship.
- 5). To analyze the concept and process of getting knowledge and its related phenomena.
- 6). To recognize and define the concept of philosophy and modern philosophy.
- 7). To interpret the contribution of various Indian and western schools of philosophy.
- 8). To understand the contribution of Indian and Western philosophers to the field of education.

COURSE CONTENT

UNIT-I: Education and Philosophy (14 Hours).

- i). Concept, Nature and Scope of Philosophy, Relationship between Education and Philosophy
- ii). Branches of Philosophy: Metaphysics, Epistemology, Axiology, Logical and their Educational Implications
- iii). Modern Concept of Philosophy-Analysis- Logical analysis, Logical empiricism and Positive relativism
- iv). Schools of Philosophy with reference to concept, principles, aims of education, curriculum, method of teaching, discipline and role of the teacher- Idealism, Pragmatism, Realism , Perennialism

UNIT-II: Indian Philosophers and their Contribution to Education (12 Hours).

Contribution of the following philosophers to the educational theory and practice.

- i). Gijubhai Badheka
- ii). RavindraNath Tagore
- iii). Mahatma Gandhi
- iv). Sri Aurovindo
- iv). Swami Vivekananda

UNIT-III: Indian Schools of Philosophy (12 Hours).

Contribution of the following philosophers to educational theory and practice.

- i). Vedanta
- ii). Samkhya
- iii). Buddhism
- iv). Jainism

Page 8 of 72

Signature
20.03.23

3. To be acquainted with various curricular types and their designs, process and construction.
4. To know about curricular content, curriculum implementation and the process of curriculum evaluation.
5. To know and understand issues, trends and researches conducted in India in the area of Curriculum and curriculum development.
6. To design and develop a curricular framework with given objectives in a particular field of formal study.
7. To understand the concept and principles of curriculum development.
8. To understand and appreciate curriculum as a means of development of the individual.
9. To appreciate the need for continuous curriculum reconstruction.
10. To develop skills in framing curriculum for subjects of teaching, analysing curriculum.
11. To analyse teaching-learning process and developing course contents in the subjects of teaching.

COURSE CONTENT:

UNIT-I: Understanding Curriculum (12 Hours)

- i). Curriculum: Concept and meaning, functions, Core-Curriculum.
- ii). Types/Approaches of Curriculum- Subject-Centred, Learner-Centred, Learning-Centred, Activity-Centred, Experience-Centred, Integrated Approach, Humanistic-Centred.
- iii). Bases of Curriculum- Philosophical, Psychological, Sociological
- iv). Curriculum Policy and Framework- Constitutional Mandate, Socio-Cultural Mandate, Environmental Mandate, Economic Mandate, Political Mandate and Globalisation Mandate.

UNIT-II: Curriculum Development (10 Hours)

- i). Determinants of Curriculum-Social, Psychological, Economic, Political, cultural and Educational.
- ii). Principles, Processes/Stages of Curriculum Development.
- iii). Curriculum Framework- Concept, Components, Principles and NCFTE-2009.
- iv). Issues and Concerns in Curriculum Development

UNIT III: Models of Curriculum Development (14 Hours)

- i). Tyler Model
- ii). Hilda Taba Model
- iii). Hunkin’s Decision Making Model
- iv). Weinstein and Fantini Model
- v). Glathorn Naturalistic Model

UNIT IV: Curriculum Evaluation (14 Hours)

- i). Curriculum Evaluation- Importance, Meaning and Types.
- ii). Classroom Transaction: Planning (time, space, manpower, materials, scheme of lesson, plan of lesson), Preparation of curricular materials and activities (text and support materials, learning activities), mode of transaction and learners’ involvement-resource management (use of TLMs and activity, question bank), use of assessment mechanism for learning.
- iii). Evaluation of Curriculum: Mode (internal and external), periodicity (continuous, periodic), mechanism (research studies, on-site observation, on-line feedback, FGD), immediate and long-term revision, specific/comprehensive improvement.

Bevinda Kumari
20/3/23

20/3/23

20.03.23

iv). Current Provisions and Practices for Curriculum Development

Transaction mode: Panel discussion, interviews (with experts in curriculum studies) on identified themes, self-study and presentation of paper in internal seminars; self-reading of original sources i.e. NPE, NCF, CABE reports, commissions and committees on secondary Education and Curriculum related issues and reflective discussion on the recommendations could be done. Hands on experience at work situation and observation of training sessions and presentation etc. could constitute the different forms of curriculum transaction.

Both the individual and group learning/transactional strategies need to be adopted. Besides, the lectures, discussions, demonstration methods; attempts needs to be made to provide hands on in developing and demonstrating the materials. Students' seminars on select themes especially the current issues to curriculum development could be organised. Field visits to places of curricular other sites i.e. Museums, planetarium, zoo, sanctuaries, art and craft related sites, historical monuments, science parks etc. could be arranged and group work on the educational importance of these sites could be done and presented by pupil teachers. As an exposure to prevailing good practices, select schools could be visited by pupil teachers for observation and preparation and presentation of reports. Visits to library and laboratories could be arranged to deal with specific themes. Book reviews (including reference books and school textbooks) available at secondary level of education could be done and presented as assignments.

Sectional Work/Practicum: The students may undertake any one of the following activities.

- Critical appraisal/analysis of existing syllabi and textbooks developed by various agencies at
- National/State/local level in the light of National curriculum Frameworks' Evolving criteria for development of syllabi and textbooks.
- Maintaining of reflective diary on schools/institutions (SCERTs, School Boards, National organisations) observed visited and analysis of the own experiences.
- Evaluation of a primary class text book.
- Reading of original documents i.e. National Curriculum Frameworks developed by NCERT (NCF-2000 and 2005) AICTE, NPE-1986 (modified version 1992) POA on NPE-1996, 1992 and examine the same with respect to various aspects of foundation, critical comments be supplied for the same.

Group (A): PEDAGOGY OF LANGUAGE SUBJECT (ENGLISH)

COURSE OBJECTIVES: On completion of this course the students will be able to

- Analyse the issues relating to importance and place of English in school curriculum.
- Acquire skills in English.
- Know the aims and objectives of learning English.
- Use various methods, approaches and strategies for teaching-learning English.
- Transact various types of lesson plans covering all aspects of English language.
- Develop test items to assess learning in English.
- Provide feedback enrichment materials.
- Use the understanding of phonetics for facilitating students' speaking in English.
- Plan appropriate pedagogical treatment of the prescribed contents for effective classroom transaction

COURSE CONTENT

UNIT-I Objectives and Methods (12 Hrs.)

1. a) The Role of English in India- The Present Situation.
- b) The objectives of Teaching English at Secondary-level
- c) Bloom's Taxonomy of Educational Objectives.
2. a) Grammar-Cum-Translation Method.
- b) Direct Method
- c) The structural Approach.
- d) Bi-lingual Method.
- e). 5E Model, ICON Model

UNIT-II Skills of Language (14 Hrs.)

1. a) The mechanics of reading.
- b) Silent reading and loud reading.
- c) Intensive and extensive reading
- d) Supplementary reading.
2. a) Teaching the mechanics of writing.
- b) Controlled and graded writing exercises.
- c) Guided Composition and free compositions.
3. Development of communication.

UNIT-III: Teaching and TLM (12 Hrs.)

1. Teaching Prose, Teaching Poetry, Teaching Grammar, Teaching of Non-detailed Text.
2. Use of TLM in teaching learning process- Audio, Visual and Audio Visual Aids in Teaching.
3. Analysis of Text Books.
4. Designing blue print

Handwritten signatures and dates: 20/3/23, 20.03.23, 20/3/23, 20/3/23

20/03/23

UNIT-IV: Preparation of lesson plans and techniques of evaluation (12 Hrs.)

1. Preparation of lesson plans using Herbartian Steps, 5E Model, ICON Model & Scheme of lessons.
2. Formulation of Objectives and techniques of evaluation.
3. Use of ICT materials in classroom.
4. Preparation of Scheme of lessons.

Transactional Mode- The course would be transacted through participatory approach including group discussion; self-study, seminar/presentations by students etc.

Sessional Work/Practicum: The students may undertake the following activities:

- Each student is required to submit one assignment on any topic.
- Preparation of 4 Lesson Plans on the topics from the prescribed text following Herbartian Steps and 5E Model (at least two plans in each model)
- Preparation of a blue print on any topic from the prescribed text and development of test items in conformity with the blue print.
- Diagnosis of learner difficulty in speaking English and preparation of the remedial exercise.

GROUP (D): PEDAGOGY OF GEOGRAPHY

COURSE OBJECTIVES: On completion of this course the students will be able to

- State the importance of teaching and learning of Geography at the secondary level.
- Use appropriate teaching methods and strategies while facilitating learning of Geography.
- Develop lesson plans for effective teaching and learning of Geography.
- Prepare, collect and procure resource materials including suitable teaching aids and use them effectively in the classroom.
- Develop appropriate tools and techniques for comprehensive assessment of learning in Geography.
- State the concepts in Geography included in the secondary school curriculum and make pedagogical analysis of those concepts.

COURSE CONTENT

UNIT-I: Concept and objectives (12 Hrs.)

- (a) Geography - Concept, Scope and its importance in School Education.
- (b) Aims and objectives of Geography Teaching
- (c) Bloom's Taxonomy of Educational Objectives

UNIT – II: Methods of Teaching (12 Hrs.)

Methods of Teaching

- (a) Observation Method, Laboratory Method, Project method, Regional Method, Discussion-Method.

20/10/23
20/10/23
20/10/23

[Handwritten signature]
20.03.23

- (b) 5E Model, ICON Model
(c) Correlation of Geography with other school subjects.

UNIT – III: Instructional materials (14 Hrs.)

- (a) Instructional materials in Teaching Geography
i) Text Books
ii) Teaching Aids: Maps, Globe Atlas, Relief Maps, Charts, Pictures, Slide Overhead Projectors, Filmstrips,
iii) Audio- Radio Tape Recorders,
iv) Audio Visual -T. V. Film Projectors
(b) Co-curricular Activities in Geography, Organisation of Fieldstrips, Excursions and exhibition.

UNIT-IV: Evaluation in Geography (12 Hrs.)

- (a) Evaluation in Geography
(b) Preparation of Lesson Plans using Herbartian steps, 5E Model, ICON Model and Preparation of Scheme of lesson. Designing blue print
(c) Evaluation devices- Written, oral, assignment, project work, Portfolio
(d) Planning for continuous assessment of classroom learning in Geography.
(e) Remedial Teaching in Geography

Transactional Mode- The course would be transacted through participatory approach including group discussion; self-study, seminar/presentations by students etc.

Sessional Work/Practicum: The students may undertake the following activities:

- Each student is required to submit one assignment on any topic.
- Preparation of 4 Lesson Plans on the topics from the prescribed text following Herbartian Steps and 5E Model (at least two plans in each model)
- Preparation of a blue print on any topic from the prescribed text and development of test items in conformity with the blue print.
- Diagnosis of learner difficulty in speaking English and preparation of the remedial exercise.

GROUP (E): PEDAGOGY OF PHYSICAL SCIENCE

COURSE OBJECTIVES: On completion of this course the students will be able to

- State the nature and importance of physical science and its relevance in secondary school curriculum.
- Use various methods and approaches to teaching-learning Physical Science suitable for the secondary school classes.
- Plan lessons in physical science for effective classroom transactions.
- Develop and collect activities and resource materials for their use in enhancing quality of learning of Physical Science at the secondary level.
- Use appropriate tools and techniques for continuous and comprehensive assessment of learning in Physical Science.
- State the concepts in Physical Science included in the secondary school curriculum and make pedagogical analysis of those concepts

COURSE CONTENT

UNIT-1: Physical Science in School Curriculum (12 Hrs.)

- (i). Nature of Physical Science: Nature and Scope of Science and Physical Science in particular, Importance of Physical Science in daily life.
- (ii). Aims and Objectives of teaching-learning Physical Science at different stages of school education.
- (iii). Values of physical science.
- (iv). Bloom's Taxonomy of educational objectives- Cognitive Domain, Affective domain, Psychomotor domain.

UNIT-II: Methods of Teaching-learning Science (12 Hrs.)

- (i). Method-Discovery, Experimentation, Laboratory, Problem Solving.
- (ii). Demonstration-cum-Discussion Method, Project Method
- (iii). Constructivist Approaches: Self-learning and peer learning strategies, Collaborative strategies; 5E Model, ICON Model.

UNIT-III: Curricular Activities (14 Hrs.)

- (i). Preparation of Unit Plan, Scheme of Lesson, Preparation of Lesson Plans (Traditional, 5 E, ICON Model)

Handwritten signature and date: 20/3/2023, Kalyani Publishers

(ii). Teaching- Learning Materials –Charts, Graph, Bulletin Board, Models; ICT materials like , Filmstrips, Slides, Transparencies, TV, Audio and Video, Computer, and Internet;

(iii). Learning Activities – Science Laboratory Activities; Field Trip, Science Club, Science Seminar, Science Exhibition

(i). Key Learning Resources in Science: Assessing progress and performances, Monitoring and giving feedback, Local and community resources, Using pair work, Using group work, Using questioning (both by teacher and learners) to promote thinking, Talk for learning and Involving all.

UNIT-IV: Assessment in Science learning (12 Hrs.)

- (i). Construction of Classroom tests and Unit tests, designing blueprint, preparation of test items.
- (ii). Assessment devices; Assignments, projects work, portfolios.
- (iii). Diagnosis of learning difficulties in Physical Science, Remediation of difficulties, Enrichment Programmes.
- (iv). Planning for continuous assessment of classroom learning.

Transactional Mode- The course would be transacted through participatory approach including group discussion; self-study, seminar/presentations by students etc.

Sessional Work/Practicum: The students may undertake the following activities:

- Each student is required to submit one assignment on any topic.
- Preparation of 4 Lesson Plans on the topics from the prescribed text following Herbatian Steps and 5E Model (at least two plans in each model)
- Preparation of a blue print on any topic from the prescribed text and development of test items in conformity with the blue print.
- Diagnosis of learner difficulty in speaking English and preparation of the remedial exercise.

GROUP (G): PEDAGOGY OF MATHEMATICS

COURSE OBJECTIVES: On completion of this course the students will be able to

- Narrate the evolution and nature of Mathematics and its importance in the school curriculum in the context of the recent curricular reforms.
- Use various methods and approaches of teaching and learning mathematics especially suitable for the secondary school classes.
- Plan lessons in Mathematics using traditional and constructivist approaches for effective classroom transactions.
- Develop and collect activities and resource materials for their use in enhancing the quality of learning Mathematics at the secondary level.
- Conduct continuous and comprehensive assessment for enhancing the quality of Mathematics learning.
- Explain the concepts in Mathematics included in the secondary school curriculum and make pedagogical analysis of those concepts

COURSE CONTENT

UNIT-I: Foundations of Mathematics Education (12 Hrs.)

- (i). Meaning, Nature, Scope and Values of Mathematics.
- (ii). Aims and Objectives of teaching Mathematics at the elementary and secondary level.
- (iii). Contribution of Indian Mathematicians-Aryabhata, Brahmagupta, Bhaskaracharya, Srinivas Ramanujan
- (iv). Vedic Mathematics, NCF 2005 in the context of mathematics.

UNIT-II: Methods of Teaching-learning Mathematics (12 Hrs.)

- (i). Learning by Discovery method, Inductive and deductive method; proof by analysis and synthesis.
- (ii). Problem Solving, Project method in Mathematics.
- (iii). Constructivist approaches: Self-learning and peer learning strategies, Collaborative strategies, 5E Model. ICON Model. Preparation of Scheme of Lesson.
- (iv). Correlation of mathematics with other subject and within the mathematics subject.
- (v). Bloom's Taxonomy of educational objectives- Cognitive Domain, Affective domain, Psychomotor domain.

UNIT-III: Curricular Activities in Mathematics (14 Hrs.)

- (i). Preparation of Lesson Plans (Traditional, 5 E, ICON Model),
- (ii). Activities in Mathematics: Mathematics Quiz, Mathematics Club activities, Mathematics Exhibition, Planning and organizing Mathematics laboratory activities, Mathematics outside the

319

classroom.

(iii). Learning Materials in Mathematics: Types, functions, preparation and utilization of learning materials - Textbook, Models, Calculators and computers, Graphic calculators, Maintaining portfolio in Mathematics.

(iv). Key Learning Resources in Mathematics: Assessing progress and performances, Monitoring and giving feedback, Local and community resources, Using pair work, Using group work, Using questioning (both by teacher and learners) to promote thinking, Talk for learning and Involving all

UNIT-1V: Assessment of and for Mathematics Learning (12 Hrs.)

- (i). Assessment of Mathematics learning: Unit test – Designing blue print, item construction,
- (ii). Assessment for Mathematics Learning: Assignments, Projects and portfolios in Mathematics, group and collaborative assessment in Mathematics.
- (iii). Non-testing methods of assessment of/for mathematics learning: Observation of learners in action, rating of participation in various Mathematics tasks and activities, Diagnosis of difficulties in learning Mathematical concepts.
- (iv). Remediation of the difficulties, enrichment programmes in Mathematics learning –National Mathematics Talent Search, Mathematics Olympiad. Planning for continuous assessment of classroom learning in Mathematics.

Transactional Mode- The course would be transacted through participatory approach including group discussion; self-study, seminar/presentations by students etc.

Sessional Work/Practicum: The students may undertake the following activities:

- Each student is required to submit one assignment on any topic.
- Preparation of 4 Lesson Plans on the topics from the prescribed text following Herbartian Steps and 5E Model (at least two plans in each model)
- Preparation of a blue print on any topic from the prescribed text and development of test items in conformity with the blue print.
- Diagnosis of learner difficulty in speaking English and preparation of the remedial exercise.

GROUP (H): PEDAGOGY OF COMMERCE

COURSE OBJECTIVES: On completion of this course the students will be able to

- Narrate the importance of commerce in the school curriculum in the context of the recent curricular reforms.
- Use various methods and approaches of teaching and learning mathematics especially suitable for the secondary school classes.
- Plan lessons in commerce using traditional and constructivist approaches for effective classroom transactions.
- Develop and collect activities and resource materials for their use in enhancing the quality of learning commerce at the secondary level.
- Conduct continuous and comprehensive assessment for enhancing the quality of commerce learning.
- Explain the concepts in commerce included in the secondary school curriculum and make pedagogical analysis of those concepts

COURSE CONTENT

UNIT-I: Nature and need of Commerce (12 Hrs.)

- (i). Meaning, Nature, Need, Scope of Commerce Education.
- (ii). Aims and Objectives of teaching Commerce.
- (iii). Bloom's Taxonomy of educational objectives- Cognitive Domain, Affective domain, Psychomotor domain.
- (iv). Techniques of writing objectives.

20.03.23

Page 34 of 72

Garodia Kumar

UNIT-II: Curriculum of commerce and resources in commerce teaching (12 Hrs.)

- (i). Concept of curriculum.
- (ii). Principles of curriculum construction in commerce syllabus with reference to BSEB, CBSE and ICSE.
- (iii). Teaching Learning Materials- Audio, Visual and Audio-Visual with examples
- (iv). New trends in teaching commerce: Market Visit, E-Business platform, use of software and hardware in teaching commerce.

UNIT-III: Instructional planning and strategies (14 Hrs.)

- (i). Methods of commerce teaching-Lecture method, project method, problem solving method, discussion method.
- (ii) Unit planning and lesson planning. Preparation of Scheme of Lesson.
- (iii). Constructivist approaches: Self-learning and peer learning strategies, Collaborative strategies, Herbartian Steps, 5E Model, ICON Model.
- (iv). Designing blue print.

UNIT-IV: Curricular Activities and Evaluation (14 Hrs.)

- (i). Preparation of Lesson Plans (Traditional, 5 E),
- (ii). Core teaching skills, planning of micro lessons for the development of core skills.
- (iii). Use of textbook and its characteristics of a good textbook.
- (iv). Evaluation in commerce, preparation achievement text.

Transactional Mode- The course would be transacted through participatory approach including group discussion; self-study, seminar/presentations by students etc.

Sessional Work/Practicum: The students may undertake the following activities:

- Each student is required to submit one assignment on any topic.
- Preparation of 4 Lesson Plans on the topics from the prescribed text following Herbatian Steps and 5E Model (at least two plans in each model)
- Preparation of a blue print on any topic from the prescribed text and development of test items in conformity with the blue print.
- Diagnosis of learner difficulty in speaking English and preparation of the remedial exercise.

CC-9: GENDER, SCHOOL AND SOCIETY

No. of Credits: 5 Contact Hours Per week-5 Maximum Marks- 100
Examination Duration-3 Hours (Theory External-70, Practicum Internal-30)

COURSE OBJECTIVES: On completion of this course the students will be able

1. To state the key concepts related to the gender issues.
2. To identify key gender issues in school, curriculum, textbooks and pedagogical process.
3. To understand the ways to address gender issues in and out of school context.
3. To know about Paradigm shift from women's studies to gender studies.
5. To understand some landmarks from social reform movements.
6. To state role of family, school, community and media in addressing the issues.
7. To understand the Gender in text and pedagogy.
8. To understand Gender inequality in school context
9. To define gender inequality in school context.
10. To state the role of Education for gender equality.

COURSE CONTENT:

UNIT-1: Gender Related Key Concepts (12 Hours)

- (i). Gender, Sex. Sexuality, masculinity, feminism, patriarchy, gender bias, gender stereotyping and empowerment, gender parity, gender asymmetry
- (ii). Equity and equality in relation with caste, class, religion, ethnicity, disability and region.
- (iii). Gender and Society: Understanding the context of India with special focus on Bihar.
- (iv). Historical Backdrop: Some landmarks from social reform movements; focus on Women's experiences of education, legislative.

UNIT-II: Gender and Education: Curriculum, pedagogy and Teacher (12 Hours)

- (i). Paradigm shift from women's studies to gender studies; perspective of researches, school and curriculum: The question of gender sensitivity; gender and hidden curriculum; Understanding school spaces from the perspective of gender.
- (ii). Gender in text and pedagogy: Analysing the 'Construction of gender' in textbooks and classroom practices.
- (iii). Role of Education for gender equality.

Page 36 of 72
Bhavana KUMAR
20/3/2023

20.09.23

(iv). Teacher: as an agent of change; gender sensitivity professional.

UNIT-III: Forms of Gender Inequality and Issues (14 Hours)

- (i) Forms and issues: Mortality inequality, Natalty inequality, Special opportunity inequality, Professional inequality, Basic facility inequality, Ownership inequality, Household inequality
- (ii) Gender inequality in school context: Access and Participation, gender stereotype role assignments, curriculum and textbooks, inadequate gender sensitive facilities, teachers' preferential treatment, sexual abuse in school.
- (iii) Gender identity construction – Influence of home, society, culture

UNIT-IV: Addressing Gender Issues (12 Hours)

- (i) Role of family, school, community and media in addressing the issues.
- (ii) Policy perspectives about Gender issues: Policy provisions – NPE (1986/92), NCF (2005), RTE (2009), Bihar State Women Empowerment Policy (2015).

Transactional Mode: The course would be transacted through participatory approach including group discussion; self-study, seminar/presentations by the students etc.

Sessional work and practicum: The students may undertake any one of the following activities:

- Assignment/term paper on selected theme from the course.
- Surveys of five families on role distribution among family members and preparation report.
- Preparation of a report on gender-based roles and practices of the students and staff.
- Analysis of a secondary level textbook from gender perspective

M.A IN EDUCATION

THIRD SEMESTER

CC-10: TEACHER EDUCATION

No. of Credits: 5 Contact Hours Per week-5 Maximum Marks- 100
Examination Duration-3 Hours (Theory-70, Practicum-30)

COURSE OBJECTIVES: On completion of this course the students will be able

1. To develop in the student understanding of the concept, objectives and principles of teacher education.
2. To acquaint the student with the innovative practice in teacher education.
3. To develop in the student professional ethics and commitment to the profession.
4. To acquaint the student with different agencies of teacher education in India and their rules and functions.
5. To acquaint the student with the system of teacher education in one of the developed countries.
6. To acquaint the student with the role of professional organization of teacher educators
7. To help the student to understand major issues and problems of teacher education
8. To acquaint the student with the research orientation in a teacher education program
9. To enable the student to understand the need for continuing education of teachers and teacher educators.
10. To enable the student understand planning, administration and financing of teacher education.

COURSE CONTENTS

Unit I: Perspectives and Development on Teacher Education (14 Hrs.)

- i). Teacher Education-Concept, aim, need and scope, teacher education in a changing society. A brief historical perspective of teacher education in the Indian context.
- ii). Teacher Development - Concept, Factors influencing teacher development- personal, contextual
- iii). Teacher Expertise - Berliner's stages of development of a teacher.
- iv). Different organizations and agencies involved in teacher education - their roles, functions and networking
- v). Preparation of teachers for art, craft, music, physical education and special education - need, existing programmes and practices

Unit II: Structure, Curriculum and Modes of Pre-service Teacher Education (12 Hrs.)

- i). Pre-service teacher education - concept, nature, objectives and scope.
- ii). Structure of teacher education system in India - its merits and limitations

20/3/23

20/3/23

CC-11: COMPARATIVE EDUCATION

No. of Credits: 5 Contact Hours Per week-5 Maximum Marks- 100
 Examination Duration-3 Hours (Theory External-70, Practicum Internal-30)

COURSE OBJECTIVES: On completion of this course the students will be able

- 1). To understand the concept, significance and scope of Comparative Education.
- 2). To acquaint with the various approaches to study of comparative education; and also factors affecting development of education.
- 3). To comprehend and compare the concept, practice teaching and evaluation system of teacher education on focused countries.
- 4). To know the recent trends and best practices in education such assistance and open learning, vocational education and educational administration.
- 5). To understand and reflect on comparison of the educational systems of USA, UK, and India with special reference to Primary Education, Secondary Education and Higher Education.

ASB
20/3/23

ASB
20.03.23

6). To understand the prevailing problems and issues in education and also know the role of various agencies which acts for the progress of education system.

COURSE CONTENTS

UNIT-I: Conceptual Framework of Comparative Education (12 Hrs.)

- i). Concept, Significance, Aims and Scope of Comparative Education
- ii). Factors of Comparative Education
- iii). Approaches to the study of Comparative Education: Historical, Philosophical and Sociological views.

UNIT-II: A Comparative Reflection on Teacher Education (Finland and India) (12 Hrs.)

- i). Concept, Importance and Scope
- ii). Practice teaching
- iii). Evaluation system

UNIT-III: Structure of Educational System: A Comparative Study (14 Hrs.)

A comparative study of education systems of the following countries with special reference to Primary Education, Secondary Education and Higher Education:

- i). United States of America
- ii). United Kingdom
- iii). India

UNIT-IV: Comparative Reflection on Recent Trends and Practices (12 Hrs.)

- i). Distance and Open Learning in U.K., Australia and India: Aims, Methods of instruction and Evaluation system.
- ii). Vocational Education: USA & India.
- iii). Educational Administration in USA, UK & India.

Transactional Mode: The course would be transacted through participatory approach including group discussion; self-study, seminar/presentations by students etc.

Sessional Work/Practicum:

- Preparation and presentation on comparative analysis of education system of any two countries.
- Preparing a report on some current issues and also measures taken by concern International agencies.
- Unit test will be conducted.
- Group discussion will be organized on some given topics.
- Writing a report on the best practices of teacher training programs in India and USA

CC-12: EDUCATIONAL RESEARCH

No. of Credits: 5 Contact Hours Per week-5 Maximum Marks- 100
 Examination Duration-3 Hours (Theory External-70, Practicum Internal-30)

COURSE OBJECTIVES: On completion of this course the students will be able

- 1). To understand the concept of research and educational research.
- 2). To understand the types and methods of educational research,
- 3). To understand the steps involved in educational research,
- 4). To understand the procedure to conduct the research in the educational field.
- 5). To understand the issues and problems faced by the State System of education and to find out the remedies to solve them
- 6). To examine the role of research tools in a research study
- 7). To develop the skills in preparation of a research tool.
- 8). To understand the role and use of statistics in educational research.
- 9). To understand the measures of central tendency and its uses.
- 10). To review the educational research articles.
- 11). To convey the essential characteristics of a set of data by representing in tabular and graphical forms

COURSE CONTENT

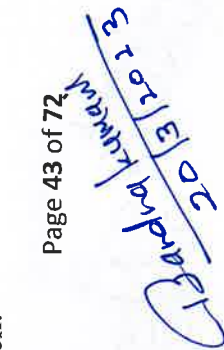

UNIT-I: Concept of Educational Research and Nature of A Problem (12 Hrs.)

- i). Meaning and nature, need and importance and scope of educational research.
- ii). Scientific Inquiry and Theory Development- some emerging trends in research.
- iii). Areas of educational research and different source of generating knowledge
- iv). Source, selection and criteria of research problem- based on experience, discussion.
- v). Review of Literature- scope and delimitations, statement of the problem in different forms.

UNIT-II: Types of Research and Its Uses (12 Hrs.)

- i). Types of educational research - Fundamental, Applied, Action research
- ii). Methods of Educational Research:

Page 43 of 72

- iii). Historical Research- need and significance, types, sources and collection of data; establishing validity and interpretation of data
- iv). Descriptive Research- surveys, case study, developmental and correlation studies - nature and use, steps and interpretation, Ex- Post Facto Research.
- v). Experimental Research - need and significance- nature and steps validity; internal and external, use and limitations of different types of experimental designs: Pre-experimental, Quasi-experimental, True experimental- role of control.
- vi). Qualitative Research.

Unit-III: Tools and Techniques of Data Collection (10 Hrs.)

- i). Tools and Techniques of Educational Research- meaning and concept
- ii). Observation, Interview, Questionnaire, Tests conference, Rating scale, Check list
- iii). E-tools – E-mail, fax, website, Internet, tale
- iv). Qualities of a good measuring tool and standardization procedure(a) Preparation of tools- Reliability, Validity (c) Collection of information.(b) Implementation of tools (d)Methods of Collection

Unit-IV: Simple Data Organisation Techniques (16 Hrs.)

- i). Organization and tabulation of data
- ii). Graphical Representation- Histogram, Bar Diagram, Picto-graph, Frequency curve, Frequency polygon, Ogive, Pie chart
- iii). Significance and uses of:
 - (a) Measures of Central tendency - Mean, Median, Mode.
 - (b) Measures of variability - Range, Q.D. , S.D.
 - (c) Measures of relative positions: Quartile, Deciles, Percentile and percentile rank, standard scores and T scores.
- iv). Correlation
 - (a). Concepts, types and uses; assumption and uses of rank difference, computation of rank difference correlation and Product Moment Method, Transaction Mode
 - (b). Lecture-cum-Discussion, Brain Storming, Group Discussion, Presentations; Panel discussion; Seminar presentations, research exercises.

Transactional Mode: The course would be transacted through participatory approach including group discussion; self-study, seminar/presentations by students etc.

Sessional work/Practicum :(any one)

- (i) Preparing and standardization of a research tool.
- (ii) A project on sample description using data organisation techniques

CC-13: INFORMATION AND COMMUNICATION TECHNOLOGY IN EDUCATION

No. of Credits: 5 Contact Hours Per week-5 Maximum Marks- 100
Examination Duration-3 Hours (Theory External-70, Practicum Internal-30)

COURSE OBJECTIVES: On completion of this course the students will be able

- 1). To develop an understanding of the concept of Educational Technology
- 2). To develop an understanding of the importance and need of communication through ICT
- 3). To develop skills of using Educational and communication technology in classrooms
- 4). To develop an understanding of the concept of instructional System
- 5). To develop an understanding of the importance and need of Instructional System Design
- 6). To develop the process of different Instructional Strategies
- 7). To make the learners skilled in using different Instructional Models
- 8). To develop an understanding of the concept of ICT in Education.
- 9). To develop an understanding of the new trends and technology in ET and ICT

COURSE CONTENT

UNIT-I: Information and Communication Technology (14 Hrs.)

- (i). Concept, Meaning and Importance of Information and Communication Technology
- (ii). Difference between Educational Technology and ICT
- (iii). Challenges in integrating ICT in School Education
- (iv). Computer Assisted Instruction
- (v). On-line Learning- (Synchronous and Asynchronous), E-learning, Online learning, Emerging trends in ET and ICT. Videotape. Smart-boards, Radio-vision. Tele-conferencing, CAI, INSAT, Virtual Classroom, Web 2.0 Technology and Tools

UNIT-II: ICT Mediation in Teaching- Learning (12 Hrs.)

- (i). Objectives, principles and Policy guiding of ICT mediation in Teaching- Learning
- (ii). Constructivist possibilities for student teachers.
- (iii). Competencies defined in the National Policy on ICT in School Education- Basic, Intermediate and Advanced.
- (iv). Capacities to handle today's and tomorrow's technologies-Connecting with the World, Connecting with each other, Creating with ICT, Interacting with ICT, Possibilities in Education and Reaching out and Bridging Divides.

UNIT-III: Familiarity with the ICT environment (12 Hrs.)

- (i). Accessing the Web; Familiarity with the ICT environment; working with data; e-mail and web based forums.
- (ii). Internet as a learning Resource- Documenting different types of websites to show possibilities for personal learning; Web based learning objects, simulations and Tutorials; Software applications and tools as and for using teaching learning resources, Evaluating internet resources in terms of relevance, ease of use and context.
- (iii). Digital story telling; Combining media to tell a story- scripting, Creating photo essays and video documentation as a source of information and a learning process.
- (iv). Data analysis- Look at data, read and make meaning; Graphs, Exploring sources of data, Evaluation of Data. Communicating data and data analysis.
- (v). Framework for creation of learning resources- Concept mapping; Developing a topic for a classroom; learning outcomes; Activity based learning.

UNIT-IV: Familiarity with the ICT environment (12 Hrs.)

- (i). Curriculum analysis to determine content (what do I need and what do I need to know); Identifying and add metadata for ICT resources.
- (ii). Exploring ICT for teaching learning, Curriculum analysis to determine methods of transacting (how do I teach it); Using appropriate hardware (CD/DVD, Projectors, interactive white boards and so on); Classroom organization for ICT infused lessons (teacher led instruction, self-learning and group activities).
- (iii). ICT for evaluation- purposes and techniques of evaluation, scope of ICT for evaluation.
- (iv). Online communities- Analyzing interactions; sharing thoughts and ideas- blogs, forums and mailing lists; Collaborative creations- online documents and wiki as collective.
- (v). Role of ICT in educational administration and management- role of information management, process and tools; creating databases for educational administration.
- (vi). First generation ICT models- technology driven; Second generation ICT models- pedagogy driven.

Transactional Mode: The course would be transacted through participatory approach including group discussion; self-study, seminar/presentations by students etc.

Sessional work/Practicum: (any one)

- (1). Observational studies- Observation of various instructional situations in real classrooms, Various activities in the school, the role of teachers etc. in preparation and selection of

CC-14: EDUCATIONAL MEASUREMENT AND EVALUATION

No. of Credits: 5 Contact Hours Per week-5 Maximum Marks- 100
 Examination Duration-3 Hours (Theory External-70, Practicum Internal-30)

OBJECTIVES: On completion of this course the students will be able

- 1). To develop an understanding of the concepts of measurement, assessment and evaluation
- 2). To develop an understanding of the taxonomy of educational objectives
- 3). To compare the tools and techniques of evaluation
- 4). To understand the basic concepts and techniques of measurement and evaluation in education.

 Signature: [Handwritten Signature] Date: 20/03/23

909

5). To understand the new trends in evaluation.

UNIT-I: Concept of Educational Measurement and Evaluation (10 Hrs.)

- i). Meaning, nature, purpose of educational measurement, assessment and evaluation.
- ii). Relation between measurement and evaluation
- iii). Meaning, characteristics and Types of evaluation – formative, summative, diagnostic and placement.

UNIT-II: Tools of Evaluation (12 Hrs.)

- i). Concept of tools of evaluation (meaning, characteristics).
- ii). Performance tests – Oral and Practical – merits, limitations, suggestions for improvement.
- iii). Written Tests – Essay type and objective type (in general only) questions – merits, limitations, suggestions for improvement.
- iv). Meaning of Norms, Types of Norms, Age, Grade, Percentile and Standard Score
- v). Checklist, Questionnaire, Rating Scale, Interview, Observation

UNIT-III: Approaches to Evaluation (12 Hrs.)

- i). Approaches to Evaluation: scope (teacher made, standardized),
- ii). Attribute measured (achievement, aptitude, attitude, etc.), nature of information gathered (qualitative, quantitative),
- iii). Mode of response (oral and written; selection and supply),
- iv). Nature of interpretation (self-referenced, norm-referenced, criterion referenced).

UNIT-IV: Tests and Construction: (16 Hrs.)

- i). Test: Meaning and importance; Test Items: types, characteristics & construction; Types of Tests: Teacher made, Standardized, Norm referenced and criterion referenced.
- ii). Achievement Test – Concept, Construction and uses; Standardized Test - Construction, Merits and demerits.
- iii). Characteristics of a good test: Validity, Reliability, Practicability, Usability.
- iv). Test Standardization: Steps involved in standardizing a Test; Item Analysis- Method, Uses & limitations.

Transactional Mode: The course would be transacted through participatory approach including group discussion; self-study, seminar/presentations by students etc.

Sessional work/Practicum: The students may undertake any one of the following activities:

- Assignment/term paper on selected theme from the course.
- Each student should construct two questionnaires (minimum 10 questions)
- Each Student has to present a Seminar on a topic relevant to Education.
- Assessment will be done for the written work and for the presentation.

M.A. IN EDUCATION

FOURTH SEMESTER

EC-1: SUBJECTIVE ELECTIVE/DISSERTATION

No. of Credits: 5 Contact Hours Per week-5 Maximum Marks- 100
Examination Duration-3 Hours (Practicum Internal-100)

OBJECTIVES: On completion of this course the students will be able

- To orient students to develop positive attitude towards the educational researches.
- To enable to identify research problem/topic.
- To help students to formulate research questions, objectives, hypotheses etc.
- To enable students to make research design or actual plan of work.
- To orient students with the techniques of field survey and collecting information from different sources.
- To enable students to analysis data/information quantitatively and/or qualitatively and to interpret.
- To acquaint students with the documentation procedure of the project report.

COURSE CONTENT:

The dissertation is a 5 credit component of the M.A. in Education programme. A dissertation is distinguished from other writing assignments in the programme on the basis of the expectations and processes involved therein. It is visualised as a curricular space where students (with close mentorship/guidance of a faculty member) learn to plan and conduct a research, and write a thesis. It is also a space where students come to see and draw linkages between education theory (transacted through taught courses) and research. Thus, while the product or the outcome of this component (i.e. the thesis) is important, the process through which it is arrived at is equally (if not more) significant. This makes a case for this component to be guided or mentored closely by a faculty mentor.

Various skills that are expected to be developed through this component include: articulating and formulating a research problem and research questions, designing a plan to study it, executing the plan (which includes engaging with the relevant body of literature and theory, analysing and writing the findings in an academic fashion, and presenting the work. The dissertation should preferably be in the area of specialisation that a student opts or in the areas introduced in the perspective courses. Semester IV of the programme, is where the student has to submit the final dissertation. After the preparation of the proposal and also the research tools, they will be developing the first draft, finalize the dissertation and present it in a viva-voce situation.

For supporting the students through these processes, apart from mentoring by faculty, timely orientations (to explain the expectations, processes, roles of the students and research mentors, and assessment), workshops (for example: on doing fieldwork, taking field-notes, referencing and editing, etc.) and research seminars (where the students present work in-progress, and other researchers are invited to present their work) should be organised. Sessions

20.03.23

guiding students to understand the interfaces between theory (transacted through taught courses) and the dissertation must also be planned. These could be in the form of special tutorials in relevant courses.

It is strongly recommended that department offering the programme, develops a concept note on the dissertation component that clearly specifies the expectations, assessment rules and procedures, and guidelines for students. While a set of clearly laid guidelines should be put in place for this component, there should be an openness in terms of allowing and encouraging various research styles, areas, kinds of problems, and writing styles.

Viva-voce Examination (100 marks to be examined jointly by Supervisor/ HOD and External Expert).

EC-2: ANY ONE OF THE SUBJECTS GIVEN FROM BASKET OF SUBJECTS

No. of Credits: 5 Contact Hours Per week-5 Maximum Marks- 100
Examination Duration-3 Hours (Practicum Internal-100)

Detailed course given at the end

DSE-1 OR GE-1: FROM BASKET OF THE SUBJECTS GIVEN

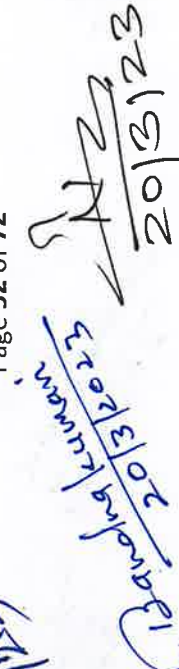

No. of Credits: 5 Contact Hours Per week-5 Maximum Marks- 100
Examination Duration-3 Hours (Practicum Internal-100)

Detailed course given at the end

20/3/23

20.03.23

A.E.C.C-1

A- Environmental Sustainability (3 Credit)

B- Swachha Bharat Abhiyan Activities (2 Credits)

Each credit requires 10 hours of teaching- learning for theory and 20 hours for practical assignment field work

A-Unit -1 Environmental ethics & ecosystem: Concept of sustainable development with reference to human values in western and Indian perspective, sustainable development & conservation of natural resources (Nature, factors, structure, development and people participation) development, environment- rural and urban, concept of Ecosystem.

A-Unit -2 Development and its effect on environment: Environment Pollution - water, air, noise etc. due to Urbanisation, Industrial civilization, Concept of Global Warming, Climatic Change, Green House Effect, Acid rain, Ozone layer depletion. Menace of encroachment of exotic plants particularly parthenium and trees with special reference to impact on habit & habitat on indigenous flora & fauna.

A-Unit -3 Concept of Bio-diversity and its conservation: Environmental Degradation and conservation. Govt. Policies, Social effects and role of social reforms in this direction. Role of science in conservation of environment concept of Three 'R' (reduce, reuse, recycle). Need of environmental education and awareness programme and ecological economics.

B-Unit -4 Swachha Bharat Abhiyan: The concept of Swachhata as personal, Gandhian approach towards social and environmental moral values & concept of swachhata and its relation to moral upgradation of society and freedom struggle. Awareness Programme related to Swachhata. Role of 'Swachhagrahis' in Swachha Bharat Abhiyan.

Sanitation and hygiene, why sanitation is needed, sanitation and human rights, plantation, value of nature, concept of community participation and role of state agencies. Case study of Sanitation, effects of cleanliness, diseases - infectious and vector -- born Idea of spread of diseases through body and other biological fluids and excreta.

B-Unit-5 Assignment/Practical/field work based on unit-4

or

Alternative to unit-4 and unit-5 a student can also enrol for Swachha Bharat Internship programme of MHRD.

Human Values and Professional Ethics (3 Credits)

Gender Sensitization (2 Credits)

(One credit requires ten hours of theory and twenty hours of practical/assignment/field work)

Unit – 1: Variety of Moral Issues, Principals of Ethics and Morality:-

Understanding the Harmony in the Society (society being an extension of family). Integrity, Work Ethic, Courage, Empathy, Self Confidence, Professional Ideas and Virtues, Ethics as a Subset of Morality, Ethics and Organizations, Duties and Rights of employees and employers.

Unit – 2: Holistic approach to corporate ethics:-

Vedantic Ethics Tagore, Vivekanand, Gandhi and Aurobindo on Ethics, Ethics in Finance, Business and Environment, Professional Rights, Intellectual Property Rights, Corporate Responsibility, Social Audit and Ethical Investing, Computer and Ethics.

Unit – 3: Professional Ethics:-

Augmenting Universal Human Order. Characteristics of people-friendly and eco-friendly production, Strategy for Transition from the Present State to Universal Human Order, At the Level of Individual- as Socially and Ecologically Responsible Technologists and Managers, At the Level of Society- as Mutually Enriching Institutions and Organizations, Case studies of typical holistic technologies and management patterns.

Unit – 4: Gender -- An Overview:-

Gender: Definition, nature and evolution, culture, tradition, historicity; Gender spectrum: biological, sociological, psychological conditioning; Gender based division of labour – domestic work and use value.

Unit – 5: Gender – Contemporary perspectives

Gender justice and human rights: international perspectives, Gender : constitutional and legal perspectives, media & gender, Gender: emerging issues and challenges.

Generic Elective (GE) course	
Course title: Graphic Designing	Credit 5
Course code: GE-1	(There shall be 5 units each consisting of one credit)
Course offered in: Semester - IV	
Course content:	
Unit	Topics
I	HTML5 and CSS3: General Introduction to Internet and WWW, Text tags, Graphics, Video and Sound Tags, Link and Anchor Tags, Table Tags, Form Tags, Miscellaneous tags (layers, image maps etc), Events, Web sockets, CSS3, API, Example Applications, etc.
II	PHP Programming and MySQL: Programming constructs, Variable/Constants, GET & POST, Files, User defined Functions, BuiltIn Functions, Cookies, Sessions, Error Handling, MySQL, tools and its integration, AJAX, XML, Object Orientation, Form, Facebook and Paypal Integration, Example Applications.
III	Java script and jQuery: Java script – Basic data types, control structures, functions, arrays and objects, events, html DOM, cookies, error handling, multimedia, animation, Example Applications. jQuery – Basics, Selectors, Attributes, DOM, Events, AJAX, CSS, UI, Plug-ins.
IV	Content Management and SEO: WordPress - Installation, Settings, Categories, Posts, Media, Pages, Tags, Links, Comments, Plugins, theme. SEO – Introduction, thumb rules, methods, keyword & title optimization.
V	Assignment / Field Work based and Unit I, II, III and IV.

Note: Students who enrolled for WEB DESIGNING as AEC in Semester II will not be allowed to take Graphic Design as a GE course in Semester IV

Generic Elective (GE) course	
Course title: Human Rights	Credit 5
Course code: GE-1	(There shall be 5 units each consisting of one credit)
Course offered in: Semester- IV	
Course content:	
Unit	Topics
I	Conceptual Aspects of Human Rights a. Meaning and Concept of Human Rights b. Human Rights, Natural Rights, Civil Rights, Political Rights and Legal Rights.
II	Evolution of the Concept of Human Rights a. Magna Carta, The united state declaration of Independence: The French Declaration of the Rights of Man and the Citizen: United state Bill of Rights: Geneva Convention of 1864: Universal declaration of Human Rights, 1948 b. International Bill of Rights, Significance of Universal Declaration of Human Rights International Covenant on Civil and political Rights, International Covenant on Economic, Social and cultural Rights.
III	Diversity, Multiculturalism and Human Rights a. Value of Diversity: Collective Cultural Rights and the Idea of Universal Human Rights: Multiculturalism and Minority Rights: protection and promotion of Human Rights in Multicultural Societies. b. Beyond Universal Human Rights: Universalism of human Rights: Nation-State and the Right to national Self-Determination: state Sovereignty and the Politics of Universal Human rights.
IV	Theoretical aspects of Human rights. a. Theories of Human rights-Liberal Perspective-Locke, Rousseau, J.S. Mill, Marxian Perspective-Marx, Gramscel b. Feminist Perspective of Human Rights.
V	Assignment / Field Work based and Unit I, II, III and IV.

 20/12/23
 20/12/23

(One credit requires ten hours of theory and twenty hours of practical/assignment/field work)

Unit 1 : Concept of typical Indian family:

Indian society and Indian family, importance of relationship within family, similarities and dissimilarities in between Indian and western family, definite role of family members.

Unit 2 : Food production and cleanliness:

Cooking - art or science, personal grooming, hygiene & uniform, Do's and don'ts while working in the kitchen, Domestic Food Production, nutrition- Balanced Diet and its function. effect of heat on fat, carbohydrates, proteins, vitamins and minerals. Cholesterol and trans fats and related diseases. Disease producing microbes.

Unit 3 : House keeping:

Equipment handling, care & cleaning & identification of cleaning equipments; Care, cleaning & polishing of surfaces - metals, glass, floor, carpets; Paints, daily cleaning of rooms and bath rooms.

Unit 4 : Safety & health care:

Psychology - child care and care of the elderly. Basic human anatomy and physiology (skeleton, respiratory, excretory, nervous & reproductive systems). First aid care in different accidents (hemorrhage, asphyxia, shock & unconsciousness, cardiac arrest, burns, insect bite, snake bite, poisoning, injury etc.). Nursing, first aid box, importance of group practice of yoga and exercise.

Unit 5 : Importance of communication and care in family:

Leadership in family, communication gap between generations, significance of soft-skill, Indian laws related to family problems, understanding and misunderstanding within the family members and among close relatives, in-laws etc. Necessity of small investments for family members.

Ability Enhancement Course (AEC) / Skill Enhancement Course (SEC)	
Course title: Computers & ICT	
Course code: AEC-1	Credit 5
Or SEC-1	(There shall be 5 units each consisting of one credit)
Course offered in: Semester- II	
Course content:	
Unit	Topics
I	Basics of Computer System: What is a computer? Computer System components -- Hardware and Software. Introduction to the terms - Motherboard, SMPS, Processor, RAM, ROM, Ports and Cards, Broad overview of different makes of these components, their availability in the market and their prices.
II	Basics of Operating Systems: Introduction to Unix/Linux Operating System, Introduction to Windows Operating System, Basic operations on Unix/Linux and Windows Operating Systems.
III	Information Management: Document Processing and e-Documentation using Word processor like open office, Statistical and Graphical data analysis using spread sheet and statistical packages, Data / Information communication and presentation using PowerPoint.
IV	SSD (Special Skill Development) Detailed study on any one of the following three using Spoken Tutorial; a. Latex b. Accounting software c. Spread sheet using Spoken tutorial d. Matlab/Scilab
V	Networking Basic:- Network topologies, LAN, MAN, WAN, TCP/IP, Knowledge of Networking hardware, Service/Client, Interface, Internet Connectivity
VI	Assignment / Field Work based and Unit I, II, III and IV.

Ability Enhancement Course (AEC) or Skill Enhancement Course (SEC)	
Course title: Web Designing	Credit 5
Course code: AEC-I/SEC-I	(there shall be 5 units each consisting of one credit)
Course offered in: Semester- II	
Course description: This paper is designed to enable student to learn basic components required to design and manage a website. The emphasis is given on hands-on training so as to enable students to design their own website.	
Course objectives: To expose students to the technology of web site design and to introduce various tools and languages required for dynamic and creative design of state-of-the-art web sites.	
Course content:	
Unit	Topics
I	HTML5 and CSS3: General Introduction to Internet and WWW, Text tags, Graphics, Video and Sound Tags, Link and Anchor Tags, Table Tags, Form Tags, Miscellaneous tags (layers, image maps etc), Events, Web sockets, CSS3, API, Example Applications, etc.
II	PHP Programming and My SQL: Programming constructs, Variable/Constants, GET & POST, Files, User defined Functions, Built-in Functions, Cookies, Sessions, Error Handling, MySQL, tools and its integration, AJAX, XML, Object Orientation, Form, Facebook and Paypal Integration, Example Applications.
III	Java script and jQuery: Java script – Basic data types, control structures, functions, arrays and objects, events, html DOM, cookies, error handling, multimedia, animation, Example Applications. jQuery – Basics, Selectors, Attributes, DOM, Events, AJAX, CSS, UI, Plug-ins.
IV	Content Management and SEO: WordPress – Installation, Settings, Categories, Posts, Media, Pages, Tags, Links, Comments, Plug-in, theme. SEO – Introduction, thumb rules, methods, keyword & title optimization.
V	Lab/Assignment/hand-on training based on Unit I, II, III and IV

Learning outcomes:

On completion of this course, the students would:
1. Have a strong foundation to undertake specialized courses in the field of web designing.
2. Develop their own website and manage it.

The laboratory work will consist of 9-15 Experiments:

1. Practicing basic HTML tags, text tags test styles, paragraph styles, headings, lists, Forms, Tables, Link and Anchor Tags etc.
2. Including graphics, video and sound in web pages. Layers & Image Maps
3. Creating animated Gifs, simple flash animations
4. Cascading Style sheets
5. Creating and browsing XML database
6. Installing web server, setting PHP, Creating client and back end script with GET & POST methods (connecting HTML).
7. MySQL commands/tools and this integration with PHP
8. Exercises covering basic introduction to JavaScript and JQuery
9. Development of a web site using Word Press involving a variety of tools practiced above.

Ability Enhancement Course (AEC) or Skill Enhancement Course (SEC)

Course title : Derivatives and Risk Management	
Course code:	AEC-I/SEC-1 Learning Hours- 50
Course offered in:	Semester 2
<p>Course description: Every investment activity entails an element of risk, even bank fixed deposits once considered to be free from risk are subject to risk like interest rate, inflation and default risk. Therefore, managing risk is one of the Prime Concern for every investor. At the same time, Speculators feel the requirement of such a financial instrument that can help in having gain at a low cost. The answer to all these is understanding and practicing DERIVATIVES.</p> <p>The derivatives are most modern financial instruments in hedging risk. The individuals and firms who wish to avoid or reduce risk can deal with the others who are willing to accept the risk for a price. A common place where such transactions take place is called the 'derivative market'</p>	
<p>Course objectives:</p> <ol style="list-style-type: none"> To develop skills among the students who are planning to pursue their career in Finance and Banking Sector. To develop knowledge among the students to enable them to take decision under the most difficult situation led by uncertainties in the competitive business world. 	
Course content:	Topics
Sl. No.	No. of Periods
1	10
<p>Introduction:- Risk as an Investment Strategy- managing risk in the corporate world- credit Risk V/s Market Risk- Default Risk- Foreign Exchange Risk- Interest rate Risk- Systematic Risk and Non-Systematic Risk- Hedging Scheme- Delta- Theta- Gamma-vegas- Rho</p>	
2	10

Learning outcomes:

By the end of the course students should be able to understand the mechanism of managing and handling risk which explicitly addresses the uncertainties of the competitive corporate world of 21st century.

A Few Topics for Case Studies:

Risk management as Decision-making Process in the Banking Sector-Risk and Uncertain business world-managing risk under the conditions of uncertainty- investment strategy and Risk- Impact of Systematic risk in project-management-importance of the knowledge of various types of risk associated with the investment-Hedging Strategy for Portfolio-delta Hedging-static delta Hedging and Dynamic delta Hedging-theta, gamma, Vegas and Rho Hedging.

Assignments:

Each student has to prepare a dissertation on any topic related to any of the Unit. The dissertation should include the following heads:

1. Preface
2. Definition
3. Review of Literature
4. Methodology
5. Observations/Case Study
6. Relevance
7. Decisions
8. Conclusions
9. Reference

Ability Enhancement Course (AEC) or Skill Enhancement Course (SEC)	
Course title: Solid Waste Management	
Course code: AEC-1/SEC-1	Credit 5 (there shall be 5 units each consisting of one credit)
Course offered in: Semester-II	
Course description: The course would cover-general introduction including definition of solid wastes- municipal waste, biomedical waste, hazardous waste, e-waste; legal issues and requirements for solid waste management; sampling and characterization of solid waste.	
Course objectives:	
1. Understanding of problems of municipal waste, biomedical waste, hazardous waste, e-waste, industrial waste etc.	
2. Become aware of Environment and health impacts of solid waste mismanagement	
Course content:	
Unit	Topics
I	General introduction including definitions of solid waste including municipal, hospital and industrial solid waste; E-wastes; legal issues and requirements for solid waste management; Solid waste management rules, 2016.
II	Health and environmental issues related to solid waste management
III	Methods of waste collection, collection techniques, waste container compatibility, waste storage requirements, transportation of solid wastes
IV	Treatment and disposal techniques for solid wastes- composting: Composting, Vermicomposting, Autoclaving, Microwaving, Incineration, Non-incineration thermal techniques, Landfilling
V	Source Reduction, Product Recovery and Recycling Recovery of Biological Conversion Products: Composts and Biogas Incineration and Energy Recovery Integrated Waste Management (IWM)
Learning outcomes:	
After completion of the course students should be able to characterize solid waste; analysis of hazardous waste constituents; understand health and environmental issues related to solid waste management; apply steps in solid waste management-waste reduction at source, collection techniques, materials and resource recovery/recycling, transport, optimization of solid waste transport, treatment and disposal techniques	
Practical:	
1. Awareness about disposal of different wastes in waste-bin (Concept of disposal of Biodegradable, Non-biodegradable and bio hazardous wastes in different coloured bins)	
2. Method of composting	
3. Method of vermicomposting	
4. Autoclaving	
5. Bio-gas production

Ability Enhancement Course (AEC) or Skill Enhancement Course (SEC)	
Course title: Mushroom Technology	Credit 5
Course code: AEC-1/SEC-1	(there shall be 5 units each consisting of one credit)
Course offered in: Semester- II	
Course description: The course would cover-general introduction about fungi including a general life cycle of Mushroom, Edible and Poisonous mushroom. Different aspects of mushroom cultivation in relation to environment, Nutritional value of mushrooms, Economic importance and health benefits of mushroom. Identification of mushroom by spore print method. Production method of edible mushrooms - Button and oyster mushroom; Preservation method for mushroom fruiting body- drying, Diseases of mushroom caused by bacteria, fungi and viruses and its control.	
Course objectives:	
<ol style="list-style-type: none"> 1. Cultivation methods for edible varieties of mushroom. 2. Preservation method for mushroom fruiting body as well as its spore and mycelium. 3. Awareness of health benefits of mushroom consumption. 	
Course content:	
Unit	Topics
I	General introduction about fungi including a general life cycle of Mushroom; Edible and Poisonous mushroom; Different aspects of mushroom cultivation in relation to environment; Economic importance and health benefits of mushroom.
II	Production method of some edible mushroom - Button mushroom (<i>Agaricus bisporus</i>), oyster mushroom (<i>Pleurotus sajorajju</i>).
III	Preservation method for mushroom fruiting body-drying; Diseases on mushroom caused by bacteria, fungi and viruses and its control.
IV	Isolation and culture of spores, culture media preparation. Production of mother culture, mother spawn, commercial spawn.
V	Different methods of maintenance of mushroom culture and its strain preservation
Learning outcomes:	
After completion of the course students should be able to understand the cultivation methods for the production of mushrooms viz. Button, Oyster; diseases on mushroom and its remedial measure; preservation method for mushroom fruiting body and its spore as well as mycelium; social, economical, environmental and health benefits of mushroom consumption.	
Practical:	
<ol style="list-style-type: none"> 1. Production of mother culture by spore culture. 2. Cultivation of Oyster mushroom. 3. Spore print and microscopic examination of mushroom spore and mycelium. 4. Preservation of mushroom by drying. 	
Assignments:	
<ol style="list-style-type: none"> 1. Edible mushroom cultivated in India 2. Poisonous mushroom. 3. Cultivation method for Button and Oyster mushrooms. 4. Nutritional and other health benefits of mushrooms. 5. Mushroom spawn production methods etc.

Ability Enhancement Course (AEC) or Skill Enhancement Course (SEC)	
Course title: Biofertilizer Technology	
Course code: AEC-I/SEC-I	Credit 5 (There shall be 5 units each consisting of one credit)
Course offered in: Semester- II	
Course description: The course would cover-general introduction about different types of biofertilizers, Edible and Different aspects of biofertilizers production in relation to environment protection, soil enrichment and other benefits. Production methods of different types of biofertilizers.	
Course objectives:	
1. Structure and characteristic features of different microorganisms used as biofertilizers.	
2. Cultivation methods for different types of biofertilizers.	
3. Awareness of environmental and agricultural benefits of biofertilizers.	
Course content:	
Unit	Topics
I	Introduction to biofertilizers-Structure and characteristic features of the following biofertilizer organisms: Bacteria: <i>Azotobacter</i> , <i>Rhizobium</i> , <i>Cyanobacteria</i> , <i>Nostoc</i> .
II	Nitrogenous Biofertilizers: Bacteria - Isolation and purification of <i>Azotobacter</i> , mass multiplication of <i>Azotobacter</i> , formulation of inoculum of <i>Azotobacter</i> . Methods of application of <i>Azotobacter</i> inoculants. Isolation and purification of <i>Rhizobium</i> , mass multiplication and inoculum production of <i>Rhizobium</i> , Methods of application of <i>Rhizobium</i> inoculants.
III	Isolation and purification of <i>Cyanobacteria</i> - Mass multiplication of cyanobacterial bioinoculants - Trough or Tank method, Pit method, Field method; Methods of application of cyanobacterial inoculum. <i>Azolla</i> - mass cultivation and application in rice fields.
IV	Biofertilization processes-Decomposition of organic matter and soil fertility and vermicomposting.
V	Biofertilizers - Storage, shelf life, quality control and marketing.
Learning outcomes: After completion of the course students should be able to understand the cultivation methods for the production of different types of biofertilizers and their benefits.	
Practical:	
1. Isolation and identification different types of microorganisms used as bio-fertilizers.	
2. Mass Cultivation of <i>Azotobacter</i> .	
3. Mass cultivation of <i>Nostoc</i> .	
Assignments:	
1. Biofertilizers cultivated in India	
2. Environmental benefits of biofertilizers.	
3. Agricultural benefits of biofertilizers.	
4. <i>Azotobacter</i> as biofertilizer	
5. <i>Rhizobium</i> as biofertilizer	
6. <i>Cyanobacteria</i> as biofertilizer	
7. <i>Azolla</i> as biofertilizer etc.

Ability Enhancement Course (AEC) or Skill Enhancement Course (SEC)	
Course title: : Environmental Law and Policy	
Course code: AEC-1/SEC-1	Credit 5 (there shall be 5 units each consisting of one credit)
Course offered in: Semester- II	
Course description: Law and policy plays a major role in the conservation and management of natural resources as well as pollution control. This course intends to introduce the students to the vast field of Environmental Law and Policy. The course would be divided into three broad areas. The first part would cover the basic concepts and principles of Environmental Law. This would include judicial precedents, which now forms an essential part of environmental jurisprudence. The second part would be divided into specific introductory modules on forests and wild life including bio-diversity related laws; Air and Water related laws including mega projects and marine laws; and laws relating to hazardous substances. The third part would discuss the role of judiciary including the National Green Tribunal in protecting the environment.	
Course objectives:	
1. To provide an overview of the law and policies relating to environment both at the national and international level.	
2. To critically analyse the implementation of these laws and the role of adjudicatory bodies in the field of environment.	
Course content:	
Unit	Topics
I	Introduction: Environment: meaning and components Environment vs Development debates, trigger events, business and environmental law, a brief introduction to SDGs. General principles in Environmental laws in India: Constitutional provisions, an overview of the laws Sustainable development: Public trust doctrine.
II	Forest, Wildlife and Biodiversity related laws: Evolution and Jurisprudence of Forest and Wildlife laws; Colonial forest policies; Forest policies after independence.
